

## July 26, 2019 VENUE 2

| VENUE 2 |   |  |                                  |                |
|---------|---|--|----------------------------------|----------------|
|         |   | Affiliation  | Lecturer                         | Chairperson    |
| 9:00    | Primary surgery for unilateral cleft lip            | Straight line repair for unilateral cleft lip  | Makoto Noguchi<br><i>P83</i>     | Yoshihide Mori |
| 9:15    |   | Surgical correction of the mal-positioned nasal cartilages and the lining defect at the time of primary lip repair to treat unilateral cleft lip nasal deformity | Shunsuke Yuzuriha<br><i>P84</i>  |                |
| 9:30    | Primary surgery for bilateral cleft lip             | primary management and cheiloplasty for bilateral cleft lip and/or palate patients   | Kazuhide Nishihara<br><i>P85</i> |                |
| 9:45    | Primary surgery for cleft palate                    | Modified two-flap palatoplasty for primary cleft palate  | Yasuyoshi Tosa<br><i>P86</i>     |                |
| 10:00   |   | Palatoplasty   | Hideto Saijo<br><i>P87</i>       |                |
| 10:15   | Coffee Break  |  |                                  |                |
| 10:30   | Secondary surgery for cleft lip                     | Secondary Repair of Cleft Lip and Nose   | Koichi Ueda<br><i>P88</i>        | Koichi Ueda    |
| 10:45   |   | The strategy of secondary repair for unilateral and bilateral cleft lip  | Yoshihide Mori<br><i>P89</i>     |                |
| 11:00   | Alveolar bone graft surgery                         | Reliability of our simple evaluation system for alveolar bone grafting using CT images   | Yoshimichi Imai<br><i>P90</i>    |                |
| 11:15   |   | Monocortical mandibular bone grafting for reconstruction of alveolar cleft   | Tadashi Mikoya<br><i>P91</i>     |                |
| 11:30   | Secondary surgery for cleft palate (Speech Surgery) | Effects of intravelar veloplasty in repushback palatoplasty  | Masaaki Sasaguri<br><i>P92</i>   |                |
| 11:45   | Lunch Break (11:45-13:00)                           |  |                                  |                |

|       |                                 |   |  |                   |
|-------|---------------------------------|---|--|-------------------|
| 13:00 | Cleft Lip Operation             | Unilateral Cleft Lip/Nose Repair  | Kenneth E Salyer<br><i>P68</i>                                 | SM Balaji         |
| 13:15 |                                 |   |  |                   |
| 13:30 |                                 |   |  |                   |
| 13:45 |                                 |   |  |                   |
| 14:00 | Speech aid                      | Speech assistant device   | Teruyuki Niimi<br><i>P93</i>                                   | Yoichiro Kameyama |
| 14:15 | Prosthetic device               | A transition of prosthodontic treatment for CLP patients  | Shogo Ozawa<br><i>P94</i>                                      |                   |
| 14:30 | Fiberscope                      | Nasoendoscopic assessment of velopharyngeal function of cleft palate  | Naoki Saito,<br>Toko Hayakawa,<br>Nagato Natsume<br><i>P96</i> |                   |
| 14:45 | Coffee Break                    |   |  |                   |
| 15:00 | Orthodontic treatment           | Early alveolar cleft closure using human umbilical cord mesenchymal stem cells in experimental model  | Naoto Suda<br><i>P95</i>                                       | Yuri Fujiwara     |
| 15:15 |                                 | Current approaches to orthodontic management of cleft lip and palate and future perspective   | Noriaki Yoshida<br><i>P98</i>                                  |                   |
| 15:30 | Speech therapy for cleft palate | Dental appliances employed in treatment of cleft palate speech -for improvement of velopharyngeal insufficiency and articulation disorders- | Ichiro Yamamoto<br><i>P99</i>                                  |                   |
| 15:45 |                                 | Bulb type palatal lift prosthesis (bulb-PLP) therapy for velopharyngeal dysfunction in cleft palate   | Yuko Ogata<br><i>P100</i>                                      |                   |
| 16:00 |                                 | Electropalatography observation of cleft palate speech to supplement perceptual assessment  | Yuri Fujiwara<br><i>P101</i>                                   |                   |
| 16:15 | Osteotomy                       | Treatment of sever jaw deformities due to cleft lip and palate using distraction osteogenesis   | Nobuyuki Mitsukawa<br><i>P102</i>                              |                   |
| 16:30 |                                 | Orthognarthic surgery in the consistent treatment protocol of cleft lip and palate.   | Tomohiro Yamada<br><i>P103</i>                                 |                   |
| 17:00 | Welcome Reception at SARU Café  |   |  |                   |
