

July 27, 2019 VENUE 1 & 2

Poster Venue: Kusunoki Terrace 1F Kinshachi Dining
 Exhibition 12:00 p.m.~7:00 p.m.

	VENUE 1 (English)		VENUE 2 (English)	
		Chairperson		Chairperson
10:00	Opening ceremony			
	Presidential Speech Nagato Natsume <i>P67</i>	Kenneth E Salyer (USA)		
12:00	Lunch Break			
13:00	Keynote Lecture; Craniofacial Surgery: Past, Present, Future Kenneth E Salyer (USA) <i>P69</i>	Nagato Natsume (Japan)	Comprehensive Team Care for Children with 22q11.2 Deletion Syndrome Richard E.Kirschner Adriane L.Baylis Canice Ellen Crerand Courtney E.Hall (USA) <i>P78</i>	Robert A. Sader (Germany)
13:15				

13:30				
13:45	Keynote Lecture; Folic Acid, Prevention of birth defects, and epigenetics: Marie M Tolarova (USA) <i>P70</i>	Anastasia Maclennan (Russian Federation)	Comprehensive Team Care for Children with 22q11.2 Deletion Syndrome Richard E.Kirschner Adriane L.Baylis Canice Ellen Crerand Courtney E.Hall (USA) <i>P78</i>	Robert A. Sader (Germany)
14:00				
14:15				
14:30	Long-term outcomes of 41 nonsyndromic sagittal craniosynostosis patients as adults: Gyorgy K Sandor (Finland) <i>P122</i>	Mzubanzi Mabongo (South Africa)	Evaluation of velopharyngeal complex in children after veloplasty: Oleg Shafeta (Ukraine) <i>P193</i> Vomer morphometric parameters in norm and children with bilateral complete cleft lip and palate: Oleg Shafeta (Ukraine) <i>P193</i>	Lian Ma (China)
14:45	Functional and aesthetic outcome in cleft nose repair: Siegmur Wilfried Reinert (Germany) <i>P192</i>		Bony Syngnathia - a rare congenital anomaly: Myra Elliott (Singapore) <i>P131</i>	
15:00	Towards establishment of 'Embryatrics'; revisited and to be continued: Hiroki Otani (Japan) <i>P73</i>	Hiroaki Aoyama (Japan)	Coffee Break	
15:15				
15:30	Where do we come from? What are we? Where are we going? - A teratologist's personal perspective: Kohei Shiota (Japan) <i>P76</i>	Hiroshi Otani (Japan)	Orthodontic treatment in Hemifacial Microsomia Martin Romero (Spain) <i>P133</i>	Naoto Suda (Japan)
15:45				
16:00	My Experience as a Member of the Japanese Teratology Society for 56 Years: Mineo Yasuda (Japan) <i>P77</i>	Kenji Kurosawa (Japan)	Cleft missions of Korean Association of Maxillofacial Plastic and Reconstructive Surgeons with a case of bilateral Tessier No. 3 cleft: Youngwook Park (Korea) <i>P134</i>	Myra Elliott (Singapore)
16:15			Global Evaluation of Surgical Techniques and Results of bilateral Cleft Lip Repairs: Angela S. Volk (USA) <i>P194</i>	
			A Model Demonstrating an International Cleft Charity's Work in Eliminating the Backlog of Unrepaired Cleft Lip Cases: Angela S. Volk (USA) <i>P194</i>	Youngwook Park (Korea)

16:30	Identification of new syndromes and its implications: Kenjiro Kosaki (Japan) P75	Sachiko Iseki (Japan)	Utilization of Cleft Lip and Palate Post-Operative Care Guidebook for Caregivers Based on Local Wisdom for Rural Area Communities: Anindita Zahratul Rasyida (Indonesia) P210	Youngwook Park (Korea)
16:45			Result of organization in-country mission for last 15 years in Uzbekistan: M.M.Jafarov (Uzbekistan) P195	
17:00	SURVEY SHEETS IMPLEMENTATION IN PRENATAL DIAGNOSIS AND CONSULTATION AMONGST COULPS EXPECTING CHILDREN WITH CLEFT LIP AND PALATE: Maclennan A.B. (Russian Federation) P125	Noriaki Yoshida (Japan)	Experiences of cleft lip and palate volunteers in the Republic of Tunisia since 2007: Takehiro Fujimoto (Japan) P105	
17:15	Challenge for treatment of congenital maxillofacial anomalies using tissue engineering: Kazuto Hoshi (Japan) P163		Associated genetic anomalies and clinical manifestations ; are etiological factors for prenatal and postnatal growth retardation among patients with cleft palate in Sri-Lanka ? Lahiru Prabodha Lande Bandarage (Sri Lanka) P136	
17:30	Secondary Alveolar Bone Grafting, My Clinical Perspective: Aysegul M.Tuzuner: (Turkey) P126	Ana Tache (Belgium)	Coffee Break	
17:45	Piloting the Use of ICHOM in Children with Clefts: Speech and Communication: Selena Ee-Li Young (Singapore) P127		THE APPLICATION OF 3D IMPRESSION IN THE PRESURGICAL ORTHOPEDICS IN BILATERAL CLEFT LIP: Nagore SOLAECHE (Spain) P192 Orthodontic Management of a Pre-pubertal Patient with Schwartz-Jampel Syndrome (SJS) to Alleviate Severe Obstructive Sleep Apnea (OSA): Thanate Assawakawintip (Thailand) P195	Geoff Williams (USA)
18:00	Cytomegalovirus Initiates Infection Selectively from High-Level β 1 Integrin-Expressing Cells in the Brain: Hideya Kawasaki (Japan) P156	Rika Kosaki (Japan)	Surgical Correction of Velopharyngeal Insufficiency with functional reconstruction of soft palate: Hongqing Zhu (China) P196	Rizk Girgis (Egypt)
18:15	Mesenchymal-derived actomyosin contractility is required for the tissue fusion during tubular urethral formation in mice: Kentaro Suzuki (Japan) P155		Folded Pharyngeal Flap Method: 40 years experience: Masaki Sawada (Japan) P145	
18:30	Critical Growth Processes for Morphogenesis of the Midfacial Skeleton in the Early Prenatal Period: Motoki Katsube (Japan) P144		A palatal pushback operation combined with musculo-mucosal flap from the posterior pharyngeal wall: Yoshio Yamawaki (Japan) P146	
18:45	Sulcal infolding abnormality induced by exposure to valproic acid at the late stage of cortical neurogenesis in ferrets: Kazuhiko Sawada (Japan) P154		International medical assistance for cleft lip and palate in Indonesia: Muhammad Ruslin (Indonesia) P137	
			OUTCOMES OF SECONDARY ALVEOLAR BONE GRAFTS IN CLEFT PATIENTS: Mzubanzi Mabongo (South Africa) P205	
19:00				
19:45	Gala Dinner (Reseravation in advance only) at Tenshunoma (Kings Room) Hotel Nagoya Castle 2F			

July 27, 2019 VENUE 3 & 4

Poster Venue: Kusunoki Terrace 1F Kinshachi Dining
 Exhibition 12:00 p.m.~7:00 p.m.

	VENUE 3 (Japanese)		VENUE 4 (English)	
		Chairperson		Chairperson
10:00			Opening ceremony broadcast VENUE 1	
11:30				
12:00	Lunch Break			
13:00	JTS General Assembly / Council of Councilors (JTS Member Only)			
13:15				

13:30				
13:45	13:40 ~ Letter of thanks presented (JTS Member Only)			
14:00	A molecular mechanism of hyperactivity in animal model of congenital hyperbilirubinemia: Arata Oh-Nishi (Japan) P168	Tadashi Kaname (Japan)	Craniosynostosis diagnosed during fetal and neonatal periods: Aya Harada (Japan) P157	Kenneth E Salyer (USA)
14:15	Dietary folate intake in young women: Comparison between university students in the Department of Nutrition and other departments: Mami Hiraoka (Japan) P184		Craniosynostosis: diagnosis and current surgical treatment: Northwestern University Feinberg School of Medicine Akira Yamada (USA) P138	
14:30	The mechanism of the L-arginine effect on culture rat embryos: Atsushi Yokoyama (Japan) P169		Kenote Lecture: 20 Years of Empowering Medical Professionals in LMICs to Provide Safe, High-Quality Cleft Care Agrawal Karoon (India) Smile Train P72	
14:45	Maxillary growth and speech outcomes of 10-year-old children after simultaneous lip and palate repair using presurgical orthodontics: Ushio Hanai (Japan) P170			
15:00	International standardization of reproductive and developmental toxicity tests	Kiyoshi Matsumoto (Japan) Hiroshi Mineshima (Japan)	Demystifying assessment of speech in individuals with cleft lip and palate: Savitha Vadakkanthara Hariharan (India) P139	Selena Ee-Li Young (Singapore)
15:15	1 The current actions for development of pediatric medicines and future perspective: Kikuko Ikeda Pharmaceutical and Medical Devices Agency P106		Diagnosis and treatment of VPD: A Global Survey Angie C Morillas (USA) P140	
15:30	2 Development of evaluation systems for brain development using mouse models of developmental disorders: Shigeo Uchino, Hitomi Shimizu, Chikako Waga Graduate School of Science and Engineering, Teikyo University P107		Unpredictable speech outcome on Submucous Cleft Palate: Lian MA (China) P142	
15:45			Nature of oral-glottal double articulation in patients with velopharyngeal insufficiency— Consideration of laryngeal involvement in consonant production —: Naohiro Kido (Japan) P147	
16:00	3 Acoustic Startle Response and Prepulse Inhibition :Mikio Sasaki Ina Research, Inc. P108		Articulation therapy for the clients with glottal stops accompanying velopharyngeal insufficiency -Prevention of oral-glottal double articulation-: Jin Kawamura (Japan) P210	
16:15	4 Allocation method of juvenile rat toxicity study :Ayumi Inoue Drug Safety Research Laboratories, Shin Nippon Biomedical Laboratories, Ltd. (SNBL DSR) P109	Preliminary study of Electrolottography application on glottal stop in Mandarin cleft palate patients: Zhen Ren (China) P206 Longitudinal study of vocal development and language environments in Korean-learning children with and without cleft palate: Seunghee Ha (Korea) P207		

16:30			Long-term outcomes of primary palate surgery -one surgeon's experience: Ana Tache (Belgium) P193	Selena Ee-Li Young (Singapore)
16:45			Secondary correction of cleft lip nasal deformity: Jin-Young Choi (Korea) P119	Adil Mamedov (Anastasia Maclennan) (Russian Federation)
17:00	Role of orthodontics in the team approach to cleft lip and palate care: assessing the effectiveness of the NAM appliance: Momotoshi Shiga (Japan) P171	Shigetaka Yanagisawa (Japan)	CAD-CAM construction of a pilot guide for a bone-anchored epithesis to replace an absent pinna: Ana Tache (Belgium) P209	
17:15	Long term assessment of the effects of occlusal management and oral myofunctional therapy in cleft lip and palate patients: Junko Nagata (Japan) P172		The Triangular Skin-white Roll Flaps Technique for Creation of Cupid's Bow in Bilateral Cheiloplasty: Geoff Williams (USA) P209	
17:30	Genome sequence for diagnosis and successive research of genetic disorders.: Koh-ichiro Yoshiura (Japan) P173	Nobuhiro Suzumori (Japan)	Our 15-years experience for cheiloplasty: Murod M. Jafarov (Uzbekistan) P208	
17:45	Pioneer's message: A senior sending a message to junior: Ryozo Hashimoto (Japan) P186		Prevention of postoperative deformities in treatment of children with congenital cleft lip: Yuliya Stepanova (Russian Federation) P208	
18:00	Role of formin-mediated actin assembly in mouse cranial neurulation: Ryu Takeya (Japan) P174		The Challenge of Operating Clefts in Mozambique: Antonio Alberto (Mozambique) P143	
18:15	Diagnosis and treatment of craniosynostosis - Current status and problems -: Takuya Akai (Japan) P185	Hajime Sunagawa (Japan)	Cut Back: a new technique of repair of wide bilaleral cleft lip: Mohammad Mughese Amin (Pakistan) P128	Akira Yamada (USA)
18:30	Problems and measures of complicated cleft lip and palate treatment: Azusa Watanabe (Japan) P175		EXPERIENCE OF ISLANDED GREATER PALATINE ARTERY FLAP FOR ANTERIOR ORONASAL FISTULA REPAIR : Mohammad Mughese Amin (Pakistan) P129	
18:45			Adult cleft lip and palate : a last chance: Mohammad Mughese Amin (Pakistan) P130	
19:00				
19:45	Gala Dinner (Reseravation in advance only) at Tenshunoma (Kings Room) Hotel Nagoya Castle 2F
